EDUCATION

GlobalTech World Computer Institute

Ketu, Lagos | Jan 2018 – July 2023

Diploma, ICT and Graphics Design

University of Lagos

Akoka, Lagos | Aug 2016 – Dec 2016

Bachelor of Science in Chemistry

EXPERIENCE

Front End Developer

Mar 2025 – Present

Openwit Technologies

Remote

- 📁 Enhanced user engagement and retention by 20% by implementing interactive dashboard analytics (graphs, stats cards and charts) for an Events organizing platform, resulting in increased attendees revisit.
- 📁 Improved Organizer experience by consuming APIs to create, edit, list, delete, search membership plans, and also notify members respectively, handling empty and loading states effectively.
- 📁 Optimized frontend components, improving development efficiency and maintainability.
- 📁 Refactored and Optimized existing codebase, reducing technical debt and improving application performance.

Front End Developer

Nov 2024 – Present

Acehelp

Remote

- 📁 Improved user experience and cross-browser compatibility by Developing and maintaining responsive React components for an education platform.
- 📁 Enhanced platform credibility by 10% by implementing assessment flow to verify tutors per selected subjects hence allowing only qualified tutors be registered on the platform.
- 📁 Implemented key features such as tutoring appointment cancellations, integrating modals for tutor/student/parent input and seamless state management..
- 📁 Optimized frontend performance of the app by streamlining API calls and utilizing Redux Toolkit for efficient state management.
- 📁 Restructured document uploads for tutor KYC, enabling better user experience and seamless upload processes.

Front End Developer Intern

July 2022 – Oct 2022

Zuri

Remote

- 📁 Collaborated with designers and backend developers to implement UI features and improve cross-functional workflows within an Agile environment.
 - 📁 Integrated RESTful APIs and handled state management with Context API to provide seamless user experiences
 - 📁 Conducted regular code reviews and participated in peer reviews to uphold code quality and best practices.
-

-
- 📁 Improved code reusability and accelerated feature development by collaborating with a cross-functional team in Agile development cycles.

Sales Manager

May 2020 – June 2022

TobTobStores

Alapere, Ketu

- 📁 Facilitated the growth in business by 20% by developing the frontend of the business website
- 📁 Created a reliable pattern of advertisement that doubled average sales per day resulting in more accumulated profit each month.
- 📁 Increased the average number of returning customers (up 60%) by monitoring orders and providing prompt deliveries and responses through the digital platform.

PROJECTS

Shelf-Share | Java, NextJs, PostgreSQL, Docker, Typescript, Tailwind

Nov 2024 – Present

- 📁 Developed a full-stack web application that allows users to borrow books, give ratings as well as feedbacks, and give recommendations to other users.
- 📁 Implemented JWT-based authentication to secure user login and resolve issues like token signature mismatches and CORS error.
- 📁 Leveraged Docker for containerization and efficient hosting.

Shoppingify | Java, NextJs, Git, Typescript, MongoDB, Tailwind, Docker

Oct 2024 – Nov 2024

- 📁 Developed fullstack web app that stores & helps track of grocery items (top items, categories, checkout history)
- 📁 Implemented user authentication and user history functionality for previous checkouts using Spring Security and Jwt.
- 📁 Specially handled responsivity accross all screen sizes with tailwind.
- 📁 Built a statistics section for the top items, top categories and monthly summary(graphical curve).
